PayPal is one of the leading names in electronic digital currency deposit servic

es worldwide and highly popular when gambling at online casinos.

PayPal is completely free to use to make payments online at a variety of differ ent vendors.

The use of PayPal as a depositing method at online casino sites is limited to c

ountries outside of the United States, Canada and Australia.

PayPal works like a separate checking account for use at online vendors.

A user will deposit money into his or her PayPal account via bank transfer, deb

it card or credit card and then use the money at online casinos.

This ensures that sensitive credit card information is shared with only one sit

e when making payments online. You can choose to use your everyday PayPal account that you use for all interne

t transactions with your PayPal online casino, or you can open a totally separat

e account with a different credit card that you use for dedicated casino play. Doing that will also help you regulate the amount of money you spend, and keep

track of your winnings easier.
