What should I know, if I choose to gamble?

If you choose to gamble, it's a good idea to learn about the game itself, how to play, and how much time and money you want to spend.

You should also have a plan in place to minimize harmful outcomes that can result from excessive gambling.

Gambling is intended to be a recreational activity.

Whether you or someone you know chooses to gamble, it's important to understand that gambling comes with potentially serious risks.

The fact is, most people lose when they play the lottery, play a casino game, or place a bet.

Slot machine odds are fixed.

No matter how you play, the odds of winning always stay the same.

Covers BetSmart Rating

This means that we have been rating and reviewing online betting sites since sportsbooks first took their offerings to the World Wide Web.

We've decided to take all of this experience and develop the Covers BetSmart Rating, all in an effort to ensure you're playing at a safe and secure betting site.

Each sportsbook is given a 5-star rating that is based on the five main factors that we feel are crucial to you having a good experience while betting online: bonuses and promotions, banking and payout speeds, key features, security and trust, and customer service.

This isn't to say that we only look at the above factors when reviewing a sportsbook.

Our reviewers are also sports bettors and they test out each site for a few days before submitting their review.

Then they make bets, testing out features like live betting and cash out.

The detail that goes into our review process ensures that you're getting the most detailed sportsbook reviews possible.
