The original Tolkien series has a rabid fan base. Upsetting them could hurt Amaz

on.

Amazon's \$1 billion bet on its new "Lord of the Rings" streaming T

V series is falling flat with initial audiences, posing risks for Amazon Studios

and the company's Prime membership program.

Though critics have praised the series' scope and ambition, "The Rings

of Power" has rankled with audiences, who gave the show a 39% rating on Rot

ten Tomatoes. (By contrast, Peter Jackson's early 2000s Lord of the Rings tr) Tj T\* BT

on-owned IMDb, audiences rated "The Rings of Power" an anemic 6.8/10.

Low ratings from viewers signals a "greater than zero" risk that some

Prime members could cancel their subscriptions, Forte said in an interview Tuesd

ay. Part of Amazon's strategy with big budget streaming video content is to

entice more people to subscribe to Prime because they often end up buying many o

ther products and services from the company.

One hardcore Tolkien fan echoed those comments on Twitter: "Tolkien is turn

ing in his grave," Tesla CEO Elon Musk wrote.

Indeed, it's likely that audience scores for the series will improve in comi

ng weeks as people who are less-invested in Tolkien's epic watch the series,

Forte predicted.

Amazon executives will be closely watching what percentage of all Prime Video st

reams the project represents and how many inactive Prime accounts logged on to w

atch "The Rings of Power," Insider previously reported.

"It has to succeed," this person added. "There's no option.&q
