Let's discuss some of the most popular side bets available in a live baccarat online in Australia.

The pair does not necessarily have to be of the same suit to win this bet.

For instance, you win if you place an Either Pair side bet and the player position has two Jacks of the same or different suit.

For example, if the Banker's opening cards are two Jacks of spades.

The typical payout for this bet is 25:1.

So if you place a Player Pair bet but the pair shows up on the Banker position and not the Player position, you lose.

As you may expect, this type of side bet has higher risk than the Either Pair bet, and it pays more, 11:1

On the other hand, the "Small" side bet refers to wagering on the total number of cards in a round to be four.
