A bettor can wager on whether or not the combined points/goals/runs scored by both teams will be greater than, less than, or equal to a certain number.

th teams will go over or under a predetermined amount.

You're not trying to guess the exact amount.

Over/unders come in all shapes and sizes - you can wager on the total points scored

red in a game, or on a prop bet like total field goals in an NFL game or total r

ebounds by an NBA player.

That's what the -110 odds mean next to the Chiefs-Titans total points.

5, but the sportsbook makes its projection closer to 9 than 8.

Just five years ago, NBA betting totals in the 180's were common.

Here are over under betting records for each sport since the start of their 2016
