So, you see that there are certain strategies to make betting on virtual football profitable.

At the same time, you should not forget that football is not the only sport available to place virtual bets on.

Hey, I hope I am in the right sub since this seemed like the biggest and most active betting related sub.

Maybe it is better for me to ask other people in person or other subreddits but I thought I would give this a try.

The question is how do I do it with what VPN and through what method.

The problems I currently have is how to safely switch to a static ip and how this can be done in a safe way so bookmakers don't catch on.

g.
tracers and cookies.

My current solution is creating new accounts through other people for me to bet safely when I am abroad so I don't put my current accounts in danger.

If you have something don't mind sharing it! Thanks for reading through this and if this isn't the right subreddit for me then I am sorry but please guide me to where
